Appl. No. 10/609,081 Resp. of 03/29/05

## Amendments to the Claims:

Please amend the claims as indicated. This listing of claims will replace all prior versions and listings of claims in the application:

## Listing of claims:

1-15.	(cancelled without prejudice)
16-18	(cancelled)
19.	(currently amended) The apparatus according to claim 18 An apparatus for filling
a plur	ality of reactor tubes contained in a reactor vessel with at least one catalyst,
compr	ising:
	a hopper:
	a catalyst moving device mounted below the hopper wherein the catalyst moving
device	comprises a trough having one open end and a vibrating motor attached to the
trough;	
	a catalyst dispenser mounted below the catalyst moving device;
······	a scale attached to the catalyst dispenser:
	a computer in communication with the scale, the catalyst moving device and with
the cat	alyst dispenser; and
	a gate mechanism mounted over the open end of the trough and in communication
with th	ne computer wherein the gate mechanism has a brush.

(cancelled)

20.

Appl. No. 10/609,081 Resp. of 03/29/05

21. (currently amended) The apparatus according to claim 20 An apparatus for filling	
a plurality of reactor tubes contained in a reactor vessel with at least one catalyst.	
comprising:	
a hopper:	
a catalyst moving device mounted below the hopper wherein the catalyst moving	
device comprises a trough having one open end and a vibrating motor attached to the	
trough:	
a catalyst dispenser mounted below the catalyst moving device;	
a scale attached to the catalyst dispenser; and	
a computer in communication with the scale, the catalyst moving device and with	
the catalyst dispenser;	
a gate mechanism mounted over the open end of the trough and in communication	
with the computer wherein the gate mechanism has a brush;	
a second hopper;	
a second trough mounted below the second hopper, the second trough having one	
open end:	
a second vibrating motor attached to the second trough;	
a second gate mechanism mounted over the open end of the second trough	
wherein the second gate mechanism has a second brush:	
a second catalyst dispenser mounted below the second trough and the second gate	
mechanism;	
a second scale attached to the catalyst dispenser; and	

Appl. No. 10/609,081 Resp. of 03/29/05

wherein the computer is in communication with the second scale, the second vibrating motor and the second gate mechanism.

- 22. (currently amended) The apparatus according to claim 196 wherein the catalyst dispenser includes a door mechanism.
- 23. (new) The apparatus according to claim 21 wherein the catalyst dispenser includes a door mechanism and wherein the second catalyst dispenser includes a second door mechanism.
